

As you enjoy the outstanding natural environment of the Cathedral Pines Pathways and the Cathedral Pines Campground, please join us in celebration of protecting our environment!

Beginning in the summer of 2007, the Cathedral Pines Campground actively participates in the recycling of reusable materials (glass, cans and returnable containers). Our goal is to have a significant environmental and financial impact on Eustis' waste removal program...one item at a time!

All Pathway areas are "Carry in, carry out".

Thank you!

The Cathedral Pines Campground and Pathways are owned and operated by the Stratton-Eustis Development Corporation.
